Subject: FW: 435 Jefferson Ave - Daniel Prude - In Custody Death

Commander – FYI we are sending the file on the in custody death to corporation council pursuant to the FOIL request....Unless for some reason we are told not to....

Capt and Commander,

In reference to the in-custody death case that MCU handled in March, I received a request from Corporation Counsel's Stephanie prince for all files related to this case. Steph received a FOIL request on this that was initially denied because the case was still open. Since then she has received an appeal that she is trying to respond to. I gave her the Ag contact information and let her know that the AG's office is reviewing this case. Attached are all of the crime reports, SRR's and BWC video, which I think she would want. I have received two requests from her, so I am looking to get permission to send these files over to her.

I'm hoping the link below gets to all of the files that are being sent through ShareFile because of the size. For some reason I am having technical difficulties with the program that IT is helping me with. At your earliest convenience, can you please let me know if you give approval to send these over. Stephanie Prince is waiting for them.

Thank you,

Mike
